From the field to solutions.

Aquantic Solutions is the platform irrigation auditors and water agencies use to run site surveys, deliver professional water-use reports, and track savings, without cell service in the field.

THREE SURVEY FORMATS · ONE WORKFLOW

Residential

Indoor and outdoor water-use survey with fixture inventory, irrigation assessment, recommendations, and an executive summary written for the homeowner.

Large Landscape

A full irrigation audit for HOAs, parks, and campuses: distribution uniformity, zone-by-zone findings, and a list of deficiency corrections to deliver and track change over time, with ongoing management capabilities.

Commercial / Industrial / Institutional

Facility water use and landscape irrigation together, in a format built for property managers.

HOW IT WORKS

1

Survey on-site

Walk the property with the app: controllers, stations, meters, indoor fixtures, photos, all without cell service. Syncs when reconnected.

2

Generate the report

Pick the format, toggle the sections, and add your recommendations. The PDF is built for you, branded and consistent, every time.

3

Deliver and track

Send the report, log the job, and watch each site's actual use against its water budget over time.

AQUANTIC SOLUTIONS

WATER SURVEY PLATFORM

BEYOND THE SURVEY

- **ET water budgets.** Every report can compare a site's metered use against what an efficiently operating system should need, month by month.
- **Weather-based guidance.** Per-zone run-time recommendations from local weather conditions for site maintenance.
- **Maintenance reports.** Recurring visit tracking with a customer-ready report: what was done, what was observed, and when the next visit is scheduled.
- **Works offline.** The whole field workflow runs without cell service and syncs when you're back in range.

FIND YOUR PLAN

Tell us what you deliver in a typical month and we'll do the math.

Single report	Monthly	Annual
Pay as you go. One site, one professional deliverable.	A report allowance plus seats for your field team.	The best rate for steady survey campaigns.

Interested in Enterprise level management? Contact us for customized environments.

BUILT FOR

WATER AGENCIES | GOVERNMENTAL AGENCIES | PROPERTY MANAGERS | LANDSCAPE INDUSTRY

SEE IT WITH YOUR OWN SITES

Create an account and choose a plan in minutes, or tell us about your survey program and we'll set your company up.
